SUMMARY

I am passionate about Front-end Development, and I like learning new skills related to HTML, CSS, SASS, JavaScript and many more. I also enjoy bringing life into design through coding with a focus on responsive design and accessibility. I exhibit an enthusiastic and driven mentality; and with my ability to learn quickly, I aspire to secure a career in Front-end Development.

PROJECTS

Home Solutions Website HTML/CSS/JS

<https://home-solutions.netlify.app>

- Developed a website to display home renovation services using HTML, CSS and JavaScript and responsive design.
- An authentication form was created using JavaScript on the login page to allow for users to login and view their renovation dashboard
- Users can also view their completed projects, pending projects or all projects

NASA Image Search

<https://nasa-imagesearch.netlify.app>

- Built responsive search display to showcase NASA images using HTML, CSS, and JavaScript.
- Images and their corresponding titles were selected from NASA's images database API and were displayed on a CSS grid system.
- If the image does not exist, or an empty string is searched, respective error messages are displayed using DOM Manipulation

EXPERIENCE

SALES SPECIALIST

The Home Depot Canada, Toronto, ON / July 2018 - Present

- Completing special orders for Millwork, Flooring, Décor & Appliances
- Answering any questions customers may have and making proactive recommendations
- Informing customers of additional services, such as extended warranty coverage
- Participating in ongoing training pertaining to my departments
- Ensuring the work area is free of clutter and other potential hazards
